

Plugtite Heat Resistant

The new generation of service and maintenance plugs.

For use in operations such as Electrostatic lines and many other areas of industry where high temperature resistance/performance is a requirement during production process, as well as the maintenance and service of industrial equipment and machinery at more extreme temperatures.

MADE FROM A SPECIAL COMPOUND IN OUR OWN FACTORY

The Plugtite aperture has been designed and engineered to give the plug greater compression than standard solid plugs ensuring a perfect seal whilst still being able to cut to size if needed.

- ✓ Resistant to most oils and fluids
- ✓ Can be used in situations up to 230°C (445°F)
- ✓ Resistant to sunlight for greater shelf life, does not split/crack or deteriorate
- ✓ Easy to use. Insert, squeeze, press home and release
- ✓ The compressed rubber ensures a tight fit

3 STANDARD APERTURES

Plugtite Small	2mm - 14mm
Plugtite Medium	5mm - 24mm
Plugtite Large	15mm - 45mm

OTHER MEMBERS OF THE PLUGTITE FAMILY

Plugtite Hygiene

This plug is specifically produced for **use in the food and beverage processing industry.**

The use of the plugs helps to ensure that sensitive working areas are kept **free of contamination from oils** and other fluids by preventing leakage when cleaning and servicing machinery and equipment. More detailed information is available on our Plugtite Hygiene product sheet.

Plugtite Industrial

For use in the service/maintenance of industrial machinery such as hydraulic/chemical lines and Industrial. More detailed information is available on our Plugtite Industrial product sheet.
